**Experience**

Dr Kua Jieli is a senior consultant cardiologist specialised in interventional cardiology and the medical director at Carrington Cardiology.

He has performed more than 5,000 invasive coronary angiography and percutaneous coronary intervention procedures. He is experienced in managing complex cardiovascular disease and difficult coronary interventional procedures, such as left main disease, chronic total occlusions and calcified lesions.

**Advanced Training**

After obtaining his Bachelor of Medicine and Bachelor of Surgery (MBBS) from the National University of Singapore, Dr Kua furthered his medical education by earning a Membership in the Royal College of Physicians (MRCP) in the United Kingdom, London. Subsequently, he pursued advanced training and obtained a Master of Medicine (Internal Medicine) from the National University of Singapore.

**Clinical Leadership**

In addition to his clinical and research roles, Dr Kua Jieli actively contributes to management and committees in his field. He serves as the Post PCI clinic lead at NTFGH and is a Western STEMI regional network committee member. He is also newly appointed as the secretary for PCI Chapter of Singapore Cardiac Society. Furthermore, he is appointed as a fellow of the Asian-Pacific region (FAPSIC). Dr Kua's commitment to excellence in cardiology, extensive research contributions, and dedication to education make him a renowned leader in his field, ensuring the highest quality care for his patients and the advancement of cardiovascular medicine.

**Teaching and Awards**

Dr Kua Jieli is dedicated to education and has been a Clinical Lecturer at the National University of Singapore since 2013. He has received prestigious awards, including Best Case Presenter at TCTAP 2023 and 2024.

**Research and Publication**

Dr Kua has significantly contributed to cardiology through his extensive research and publications. Dr Kua's research has been published in reputable journals such as the European Journal of Cardiothoracic Surgery and the European Heart Journal, reflecting his commitment to advancing medical knowledge and improving patient care. Additionally, he has presented his findings at prestigious conferences such as the Transcatheter Cardiovascular Therapeutics (TCT) and has been recognised with awards for his contributions to the field.
